

ASPHALT CLEANER & HARDENER CLEANING INSTRUCTIONS

Wet Application

1 Remove rubbish and debris

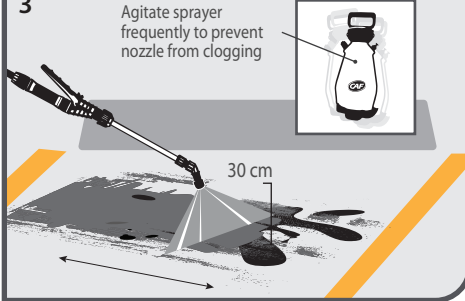

2

3

Agitate sprayer frequently to prevent nozzle from clogging

4

PROTECTS

EFFECTIVE ON

- Asphalt
- Car Parks
- Driveways
- Drive thrus
- Forecourts

FREQUENCY

As needed. For best results, 2-3 applications per week may be required for tougher stains and current asphalt damage.

TASK DURATION

1-2 minutes per task when used weekly.

RESULTS

FORO is a time-driven process - Stains are reduced within 2-3 weeks and fully removed in 4-6 weeks.

PREPARATION

1. Ensure area is free from rubbish and debris.

TO MIX

2. Add a small amount of water to CAF 8 l sprayer tank. Using scoop provided, add 500 ml of FORO® to 4 l of water, close sprayer and mix thoroughly. Once mixed, use handle and pressurize the sprayer tank.

TO APPLY

3. Keep sprayer 30 cm from the surface and begin applying FORO directly onto oil stains using a smooth sweeping motion. Agitate sprayer often to avoid product settlement and reduce clogging.

4. Repeat 2-3 times weekly. Product will continue to clean up oil, in addition, to hardening and protecting asphalt from further damage.
