

FREQUENTLY ASKED QUESTIONS

How long should I leave the BOOST HD Absorbent Pad in place?

Remove the BOOST HD Absorbent Pad after 30 minutes and let the area dry. For stubborn or heavy stains, reapply BOOST HD and BOOST HD Absorbent Pad to the area for an additional 30 minutes.

How often should BOOST HD be applied?

BOOST HD should be applied as needed. Regularly scheduled cleanings ensure location cleanliness standards. We recommend weekly scheduled cleanings. BOOST HD is designed to work with other CAF products like EXIMO in maintaining an ongoing clean outdoor appearance.

How much BOOST should I use on a stain?

For a 12" x 12" (1 SQ FT) stain, use 1 ounce of BOOST HD solution.

Why do I have to push down the BOOST HD Absorbent Pad after I spray?

BOOST HD Stain Eliminator solution contains surfactants that allow stains to be pulled away from the concrete and into the BOOST HD Absorbent Pad. The dry pad pulls away the solution and removes stains and grime.

Where can I use BOOST HD?

BOOST HD is designed to work on concrete surfaces like fueling islands, sidewalks, parking lots, and drive-thru lanes. BOOST HD can be used to clean stains from diesel, beverages, or garbage.

How many times can I use the BOOST HD Absorbent Pad?

The BOOST HD Absorbent Pad can be reused. Simply dry out the BOOST Absorbent Pad and use again until the pad becomes overly worn or saturated.

What are the safety procedures for using this product?

Please read the SDS prior to use. Even though BOOST HD has been tested to be a safe cleaning solution, it is recommended that you wash your hands immediately after using the product.

What do I do with the BOOST HD Absorbent Pad after use?

This product must be disposed of in accordance with company policy and local regulations. Contact officials in your area for proper disposal procedures.
