

MAGIC PAD

HEAVY DUTY ERASER

FREQUENTLY ASKED QUESTIONS

What does MAGIC PAD remove?

Magic Pad effectively removes scuffs, dirt, graffiti, adhesives, finger prints and more.

On what surfaces should MAGIC PAD be used?

Magic Pad can be used on both smooth and textured surfaces. Magic Pad is safe to use on concrete, bricktone, tile, metal, plastic, baked enamel, street signs, and more. Even though Magic Pad is approved safe on most surfaces, always test the product on an inconspicuous place before use.

How does MAGIC PAD remove marks and scuffs?

Magic Pad is effective at removing scuff marks because the texture has tiny microfibers that penetrate deep into the pores of a surface.

What should I do if Magic Pad does not remove the entire stain in the first application?

Magic Pad works to effectively remove layer by layer. In most cases where Magic Pad is not able to completely remove a mark on the first application, each additional application of Magic Pad will weaken/fade the existing mark. Some marks may require more than one (1) application.

How does Magic Pad work?

Simply wet Magic Pad with water or an appropriate cleaner such as OTIS or VIVX. Apply pressure to scrub away unwanted marks, scuffs, dirt, graffiti, adhesives or finger prints.
