

CLEAR PROTECTIVE SHIELD

The CAF SKINZZ is a protective barrier against vandalizing, scratching, graffiti, acid etching, hard water stains and harmful UV rays.

This optically clear sacrificial barrier is easy to install, cost effective and helps keep your dispensers clean and inviting while reducing the need for costly equipment repairs and replacement.

SKINZZ provides a moisture barrier and is scientifically engineered to block out 99% of the sun's harmful UV rays. While left unprotected, UV rays will damage equipment leaving the surface brittle, discolored, cracked and faded.

ADVANTAGES

- Cost effective protection vs. equipment replacement
- Low-adhesive bond blocks out condensation and grime
- Crystal clear/invisible protection against vandalism
- Protects against hard-water stains and acid etching
- Leaves no adhesive residue when removed after use
- Quick and easy, self-installation
- Easy to remove and replace when damaged
- Custom sizing with no min. order quantities

NOTES

Protects membrane soft keys with specially engineered shields that extend the life of keypads

EFFECTIVE ON

- Indoor surfaces
- Outdoor surfaces
- Screens and displays
- Glass area
- Softkey and keypads

Note: SKINZZ Protective Shields coming now available for EMV dispenser upgrades.
